

A solid partnership makes a world of difference

Look at us as your year-round supply partner. Scores of fresh produce buyers have "partnered" with us since our founding in 1993.

Those relationships are based on our fresh produce supply capabilities in all key categories from grapes and tree fruit, to potatoes and onions. DLJ's broad range of supply partners include numerous premier growers, shippers and importers who support the company's strong marketing programs.

Our partners are confident in the safety and quality measures we take to protect all product in the supply chain. DLJ's fully-secured office is anchored by our 40,000 square foot warehouse, manned 24/7 by our employees, that maintains a HACCP-certified environment with a Primus Labs "Superior" rating.

DLJ partners with major retail chains and food service distributors who rely on our "can do" attitude and passion. From importing to field inspections, to cross docking with same day shipping and consolidation, DLJ has the expertise to supply the fresh produce industry from farm to table.

The complete story is on our website, the proof is in one call to our office.
